The Republican State League meets at Owensboro, May 1.

Try only way to overcome these hard times is to double your energy. Do a little more business. If business doesn't come to you go out after it.

NOTWITHSTANDING the people of this section are standing as the best of the droppings of the gold bug press of Louisville, a majority of them are for free gold and silver.

GOLD is a universal money. It can be its own guardian and doesn't need the protecting arm of government to take care of itself. If England wants all the gold let her have it. Silver is good enough for us.

R. M. JOLLY, V. B. Burton and Len Cashman succeeded in getting the State Board to knock off the 5 per cent. rate on town lots and 5 per cent of the 10 per cent rate on real and personal property. For all of which the tax-payers are thankful.

The great issue now before the people is the money question. They are talking, reading and discussing it. In the shops, on the trains, in every crowd, it is the only question. The people are for silver. And they won't be satisfied with anything else as their money.

THERE is an impression among politicians at Washington that John G. Carlisle may be a candidate for the Senate. In case there should be a deadlock between McCrory, Buckner and Brown, Mr. Carlisle might see a plausible side in it. He is coming here to make some speeches any way this summer, and as to the measure of success he has may largely depend as to how he stands on the silver question.

TAKE about a "Woman's week." The News sends out one every week. And that's one reason the News is so popular. The News has known for a long time that women made the best editors, the best news gatherers and the best composers. It being understood, of course, that a man's at the helm. No woman is at her best unless she has her man. But say God bless the women, if it wasn't for them a man would be in an awful bad fix too.

Five weeks great damage to many farmers in this county. Many hundreds of acres of fence were burned and several tobacco houses.

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a running nose or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and the tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surface of the tube. Deafness cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

## HORSE STOLEN.

GLENDALE, Ky., April 1.—(Special).—Last Wednesday night Henry Overton and wife went to Glendale to preach.

He rode a mule; she rode a horse. When church was over Mr. Overton went for the animals when he was surprised to find his mule and horse nowhere.

It was soon found that a man, John Brady, who was a neighbor of Mr. Overton, had stolen the animals. He was discovered that a colored man had met him one, answering to the description, riding toward Falls of Rough. Anyway, Mr. Overton, Louis Ashley, Tom Loyd and Willie Owen started out next morning on the hunt of the man and horse.

At J. A. Jones's it was learned that some one had required the way to the Falls on the night of the 28th. They thought the voice of Brady was recognized as he asked about the direction. A night watchman at the Falls saw him passing through. Having all this information and good reasons for believing that Brady would go to Butler county, where it was known he had friends, our pursuers kept eagerly on his trail. Thirty-five miles away the abandoned animal was found. Pressing on some miles, Brady was found and taken, about three miles from Glen River.

He stoutly denied having had the horse, but evidence was too strong against him. Keeping him in custody, they were several miles on the road back when he made a full confession. He said that officers in Breckenridge county were trying to serve papers on him for past offenses, and he felt he must escape; but being to wait for "borrowed" horses to reach safety. The borrowing business didn't suit Mr. Overton at this busy season and they kept their man.

Saturday morning Mr. Willie Owen boarded the train at this point taking Brady to Hardinsburg where he was turned over to Jailer Sherman. Brady has been working about here for years and, while he has never been pronounced a saint, he has never been into anything of so serious a nature as horse stealing. Several days lost from work, fifteen dollars expense, a badly treated, hungry horse, and a merciful beating of Mr. Overton's faithful dog, which insisted on following Brady are the losses sustained by Mr. Overton.

Some folks will think that Dr. Bell's Pine Tar Honey is a no more than a common cough remedy until they try it. Then they will know for themselves that it's the best on earth.
